

Let's start - SOLARC!

First class solar technology!

SOLARC

Your industrial partner for the development and production of high efficiency solar systems and charge regulators.

Start the future of independent mobile energy together with us!

SOLARC

Products 2008

Article	Short description
CSM8.055	Solar module 0,55 W _p with mono-crystalline high-capacity solar cells.
CSM8.150	Solar module 1,5 W _p with mono-crystalline high-capacity solar cells.
CSM8.150E	Solar module CSM8.150 with DC-converter
CSM16.028flex	Flex solar module 300 mW _p - 365 mW _p with poly- or mono-crystalline high-capacity solar cells.
CarSolar	Modular recharging system for 12 V batteries. An external solar module, electronics for a maximum of 4 modules, an autocaravan cable and the hanging wire are included.
Customized modules	Available on request.
SCC20	Charge controller series for SAL batteries 6/12/24 V, with ultra-low current consumption, especially suitable for small solar modules. Optional low voltage disconnect and charge level indicator.
DCC14	DC-converter max. 50 W for solar modules and fuel cells.
DCC2	DC-converter max. 5 W for solar modules and fuel cells.
SCS14	Self-sufficient compact solar power station (14 W _p): for 12 V electric devices up to 300 Watt power range.
SCS6-kit	Like SCS14, solar module 6 W _p - 12 W _p , delivered as kit.
SLS1	Universal controller module for solar lamps.
MacSolar	Solar measuring device with data logger and PV simulator and fast, wire bound RS232 interface.
MacSolar E	Simple version for direct measurements.
MacSolar Sensor	Measurement the actual light intensity and temperature values (without display).
MacView Software	Software for the graphic and tabular analysis of the measured data; RS232-cable, optional USB adaptor.
SoLait ¹⁰⁰	Solar milk frother with thin film solar cell, available in 5 different colours (blue, white, transparency-clear / -blue / -red).
scottyPro, and e.GO!	Electronic solar battery chargers for small devices from 4 to 13 V with special cables and adaptors for mobile phones, PDAs, iPod®, MP3, GPS and so on.
Solar Bag	Solar powered shoulder bag with an integrated and flexible solar module and a Li-Ion battery to charge mobile phones, PDAs, iPod®, MP3, GPS and so on. Available in several sizes and customizable design.
Solar camping LED Lamp	Powerful, elegant and innovative combination between a lamp and a charging station.
PIXO C1	Solar charging for digital and video cameras Li-Ion batteries.

07/2008, subject to change without notice!
